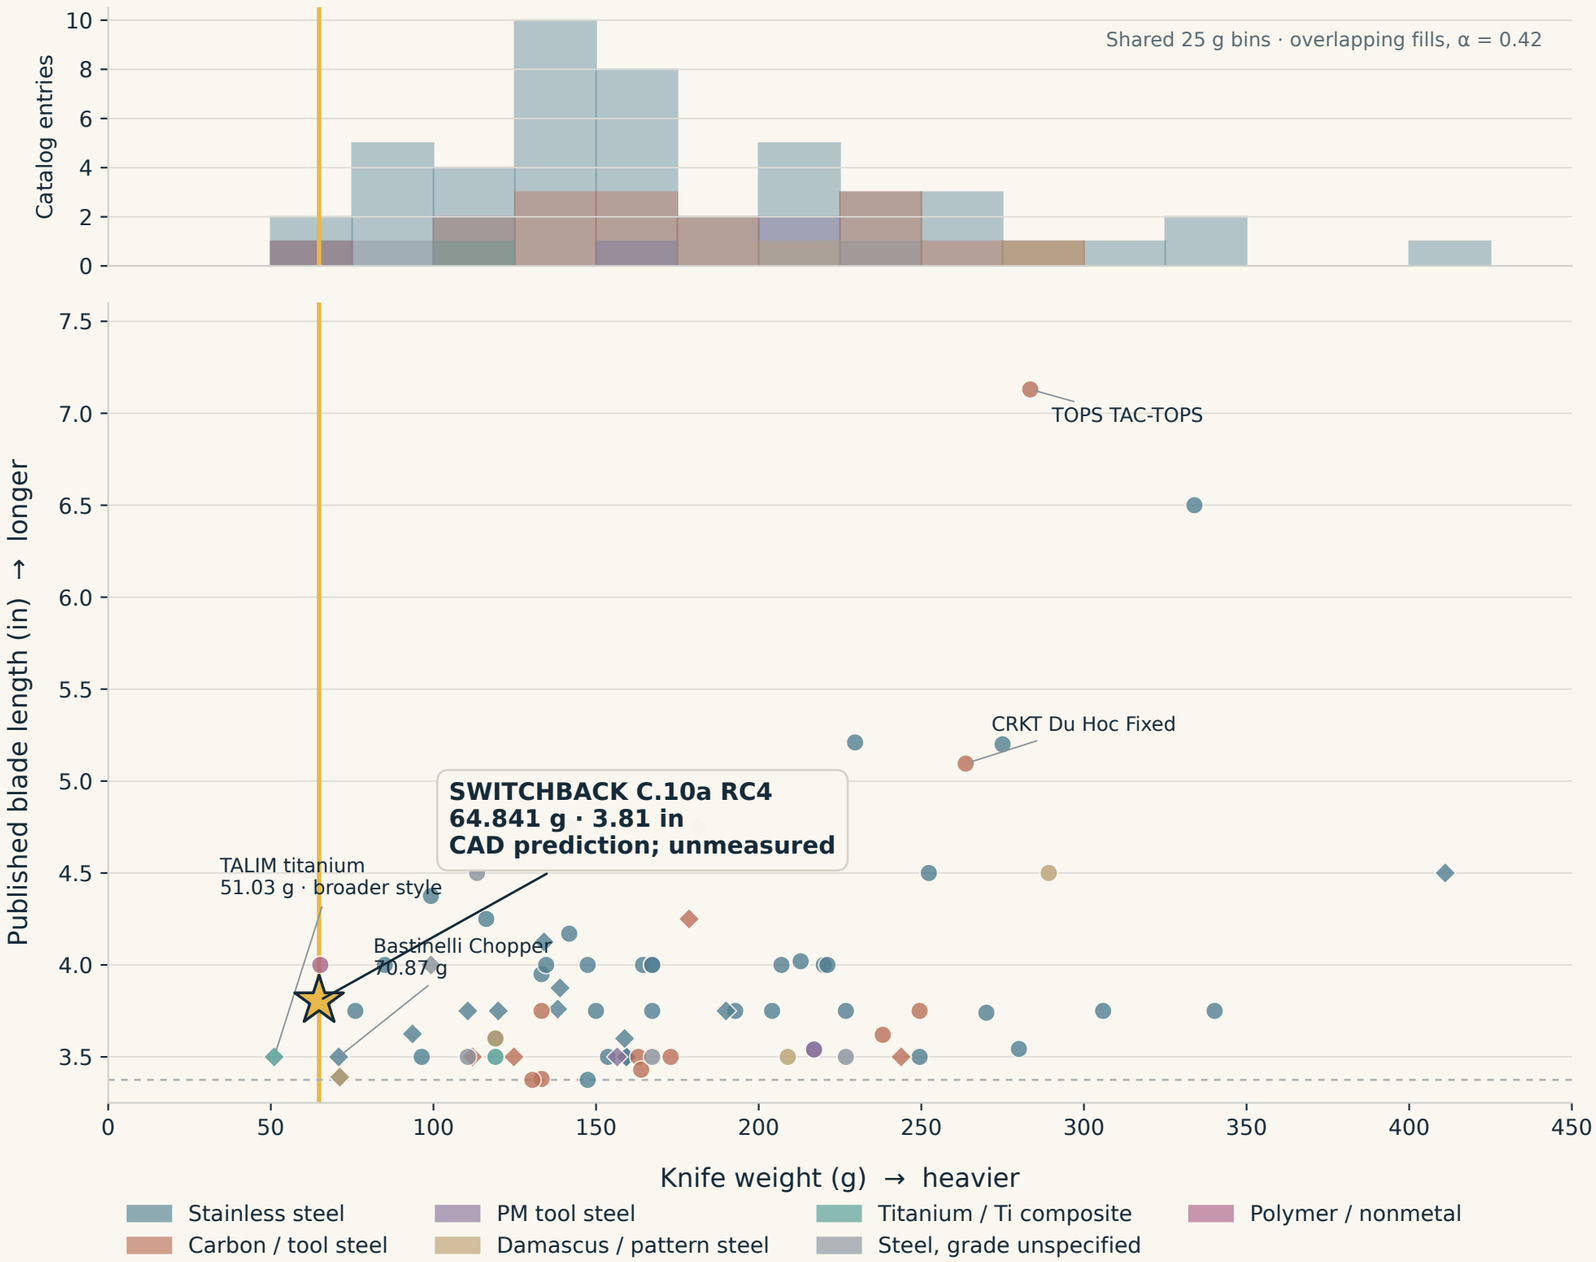
THE WEIGHT OF THE MARKET

SWITCHBACK sits near the lightweight edge

Karambit-style knives with published blade length ≥ 3.375 in • Research: October 13, 2026



64.841

grams · C.10a CAD mass

98.7%

lighter than 76 of 77
plotted catalog entries

59%

below catalog median
159.3 g

HOW TO READ

Left = lighter. Up = longer.
One point = one model/material entry or distinct custom example.

Color = blade material family.
Circle = curved karambit.
Diamond = broader style.

119 qualifying entries
42 without comparable verified weight

Catalog specifications, not physical measurements. Retail, archived and custom examples included; sales share is unknown.
C.10a length is CAD tip-to-heel. Commercial measurement conventions differ. Conflicted lengths, sets, sheaths and shipping weights excluded.
